Glas teksteffect

Nodig : lettertype 'Rialto'; bokeh structuur; verlopen

Stap 1

Eenvoudige bokeh achtergrond gebruikt voor dit effect zodat het goed zichtbaar is. Nieuw document openen : 850 x 550 px ; voeg deze "bokeh texture" toe; pas grootte aan; voeg daarna samen met de achtergrond laag; voor andere grootte van het document de instellingen aanpassen.

Glas tekst effect - blz. 1

Ook het kiezen van het lettertype is belangrijk; werk met een vet lettertype, hier Rialto; alle tekst toegevoegd in hoofdletters; lettergrootte = 220 pt.

Zet voor deze tekst laag de laagvulling op 0; dupliceer de tekst laag 3 keren zodat je dan 4 tekst lagen hebt.

<u>Stap 2</u> Geef de originele tekst laag volgende laagstijlen: * Schuine kant en Reliëf.
